

TROPICAL SWIMMING POOL

QUALITY CERTIFICATE 2019

THAI GARDEN RESORT Pattaya, Thailand

achieves

Disinfection security as in public swimming pools in Germany based on DIN 19643

Highlights: Safe for swimming thanks to the professional control of the disinfecting efficiency. Because of the frequently heavy bathing loads and the harsh influences of the tropical environment special attention is paid on the removal of parasites, which is unique in Thailand.

Only water treatment chemicals and water test methods are used which are approved in Germany.

A handwritten signature in black ink, appearing to read 'Josef Konrad'.
